### ABSTRACT

The primary objective of the study of is to review the development programs of the Governmental Bangladesh and the Non-governmental organizations to alleviate poverty in the country. The research paper mainly reviewed different sort of secondary data sources available from libraries, annual reports and Review some publications. In some cases representatives of the government organizations (GOs) and non-government organizations (NGOs) were contacted for a face to face discussion. From the findings we have found Bangladesh has alleviate a significant number of poverty through different initiatives from both GOs and NGOs which is appreciated by different national and international bodies. Present study also find we have still lot of work to do for the future to eradicate the poverty and to achieve the goal of vision 2020 of the the government. Therefore the study will provide some guidelines for future poverty alleviation program in Bangladesh.
